

Tech talk on Workload Autoscaling on a planet-scale computer

Come along to our tech talk - you'll hear about large scale cluster management and autoscaling at Google with Borg and Autopilot.

After the presentation, we would like to invite you for a casual networking and pizza. It would be a chance to talk about working at Google and maybe even to find your next opportunity.

Use the QR code or link to sign up for the event. Make sure to **fill the form**, so that we know how many people will attend. We don't want to order too little pizza!

When

Tuesday, 14th May 2024
5-7 pm

Where

Room **0004**
Faculty of Mathematics
and Computer Science,
Jagiellonian University
